to the customer's net equity claim for such account: and, *Provided further*, That adequate security for the nonrecovery of any overpayments by the trustee is provided to the debtor's estate by the customer.

(3) *Distribution in kind of specifically identifiable securities.* If any securities of a customer would have been specifically identifiable under § 190.01(kk)(6) if that customer had had no open commodity contracts, the customer may request that the trustee purchase or otherwise obtain the largest whole number of like-kind securities, with a fair market value (inclusive of transaction costs) which does not exceed that portion of such customer's allowed net equity claim that constitutes a claim for securities, if like-kind securities can be purchased in a fair and orderly manner.

(4) *Proof of customer claim.* No distribution shall be made pursuant to paragraphs (d)(1) and (d)(3) of this section prior to receipt of a completed proof of customer claim as described in § 190.02(d).

(5) *No differential distributions.* No further disbursements may be made to customers for whom transfers have been made pursuant to § 190.06 and paragraph (d)(2) of this section, until a percentage of each net equity claim equivalent to the percentage distributed to such customers is distributed to all public customers. Partial distributions, other than the transfers referred to in § 190.06 and paragraph (d)(2) of this section, made prior to the final net equity determination date must be made pursuant to a preliminary plan of distribution approved by the court, upon notice to the parties and to all customers, which plan requires adequate security to the debtor's estate for the nonrecovery of any overpayments by the trustee and distributes an equal percentage of net equity to all public customers.

(6) *Margin payments.* The trustee may make margin payments on behalf of any account which do not exceed the funded balance of that account.

§ 190.09 Member property.

(a) *Member property.* "Member property" means, in connection with a clearing organization bankruptcy, the property which may be used to pay that portion of the net equity claim of a member which is based on its house account.

(b) *Scope of member property.* Member property shall include all money, securities and property received, acquired, or held by a clearing organization to margin, guarantee or secure the proprietary account, as defined in § 1.3(y) of this chapter, of a clearing member: *Provided, however,* That any guaranty deposit or similar payment or deposit made by such member and any capital stock, or membership of such member in the clearing organization shall also be included in member property after payment in full of that portion of the net equity claim of the member based on its customer account and of any obligations due the clearing organization which may be paid therefrom in accordance with the by-laws or rules of the clearing organization, including obligations due from the clearing organization to customers or other members.

§ 190.10 General.

(2) Such a request shall be made *ex parte* and by any means of communication, written or oral: *Provided,* That an oral request shall be confirmed in writing within one business day and such confirmation shall contain all the information required by paragraph (b)(3) of this section. Any such request shall be directed to the person as provided in paragargph (a) of this section, and at the address provided therein.

(3) Such a request shall state the particular provision of the part 190 rules with respect to which the exemption or extension is sought, the reason for the requested exemption or extension, the amount of time sought if the request is for an extension, and the reason why such exemption or extension would not be contrary to the purposes of the Bankruptcy Code and the Commission's part 190 regulations promulgated thereunder.

(4) The Director of the Division of Trading and Markets, or such members of the Commission's staff acting under his direction as he may designate, on the basis of the information provided in any such request, shall determine, in his sole discretion, whether to grant, deny or otherwise respond to a request, and shall communicate that determination by the most appropriate means to the person making the request and to the bankruptcy court with jurisdiction over the case.

(c) *Disclosure statement for non-cash margin.* (1) Except as provided in §1.65 of this chapter, no commodity broker (other than a clearing organization) may accept property other than cash from or for the account of a customer, other than a customer specified in §1.55(f) of this chapter, to margin, guarantee, or secure a commodity contract unless the commodity broker first furnishes the customer with the disclosure statement set forth in paragraph (c)(2) of this section in boldface print in at least 10 point type which may be provided as either a separate, written document or incorporated into the customer agreement, or with another statement approved under §1.55(c) of this chapter and set forth in appendix A to §1.55 which the Commission finds satisfies this requirement.

(2) The Director of the Division of Trading and Markets may submit to the Commission for its consideration any matter which has been delegated to him pursuant to paragraph (d)(1) of this section.

APPENDIX A TO PART 190—BANKRUPTCY FORMS

BANKRUPTCY APPENDIX FORM 1—OPERATION OF THE DEBTOR'S ESTATE—SCHEDULE OF TRUSTEE'S DUTIES

For the convenience of a prospective trustee, the Commission has constructed an approximate schedule of important duties which the trustee should perform during the early stages of a commodity broker bankruptcy proceeding. The schedule includes duties required by this part, subchapter IV of chapter 7 of the Bankruptcy Code as well as certain practical suggestions, but it is only intended to highlight the more significant duties and is not an exhaustive description of all the trustee's responsibilities. It also assumes that the commodity broker being liquidated is an FCM. Moreover, it is important to note that the operating facts in a particular bankruptcy proceeding may vary the schedule or obviate the need for any of the partiular activities.

ALL CASES

Date of Order for Relief

1. Assure that the commodity broker has notified the Commission and its designated self-regulatory organization (''DSRO'') that a petition or order for relief has been filed (§190.02(a)(1)).

2. Attempt to estimate short-fall in customer segregated funds.

a. If there is a substantial short-fall of customer segregated funds, the trustee should:

i. Contact the DSRO and attempt to effectuate a transfer under section 764(b) of the Code (hereinafter ''bulk transfer''); notify the Commission for assistance (§§190.02(a)(2) and (e)(1), §190.06(b)(2), (e), (f)(3), (g)(2), and (h)) but recognize that a bulk transfer is highly unlikely.

ii. If a bulk transfer cannot be effectuated, liquidate all customer commodity contracts, except dealer options and specifically identifiable commodity contracts which are bona fide hedging positions (as defined in §190.01(kk)(2)) with instructions not to be liquidated. (*See* §§190.02(f) and 190.06(d)(1)). (In this connection, depending upon the size of the debtor and other complications of liquidation, the trustee should be aware of special liquidation rules, and in particular the availability under certain circumstances of book-entry liquidation (§190.04(d)(1)(ii)).

b. If there is a small short-fall of customer segregrated funds, negotiate with the clearing organization to effect a bulk transfer; notify the Commission (§§190.02(a)(2) and (e)(1), 190.06(b)(2), (e), (f)(3), (g)(2), and (h)).

3. Whether or not a transfer has occurred, liquidate or offset open commodity contracts not eligible for transfer (*i.e.*, deficit accounts, accounts with no open positions) (§190.06(e)(1)).

4. Offset all futures contracts which would otherwise remain open beyond the last day of trading or first day on which notice of intent to deliver may be tendered; offset long options on a physical commodity which cannot be settled in cash, have value and would be automatically exercised or would remain open beyond the last day of exercise; and offset all short options on a physical commodity which cannot be settled in cash (§190.02(f)(1)).

5. Compute estimated funded balance for each customer commodity account containing open commodity contracts (§190.04(b)) (daily thereafter).

6. Make margin calls if necessary (§190.02(g)(1)) (daily thereafter).

7. Liquidate or offset any open commodity account for which a customer has failed to meet a margin call (§190.02(f)(1)) (daily thereafter).

8. Commence liquidation or offset of specifically identifiable property described in §190.02(f)(2)(i) (property which has lost 10% or more of value) (and as appropriate thereafter).

9. Commence liquidation or offset of property described in §190.02(f)(3) (''all other property'').

10. Be aware of any contracts in delivery position and rules pertaining to such contracts (§190.05).

First Business Day After the Entry of an Order for Relief

1. If a bulk transfer occurred on the date of entry of the order for relief:

a. Liquidate any remaining open commodity contracts, except any dealer option or specifically identifiable commodity contract [hedge] (*See* §190.01(kk)(2) and §190.02(f)(1)), and not otherwise transferred in the bulk transfer.

b. Primary liquidation date for transferred or liquidated commodity contracts (§190.01(ff)).

2. If no bulk transfer has yet been effected, continue attempt to negotiate bulk transfer of open commodity positions and dealer options (§190.02(c)(1)).

3. Provide the clearing house or carrying broker with assurances to prevent liquidation of open accounts available for transfer at the customer's instruction or liquidate all open contracts except those available for transfer at a customer's instruction and dealer options.

Second Business Day After the Entry of an Order for Relief

If no bulk transfer has yet been effected, request directly customer instructions regarding transfer of open commodity contracts and publish notice for customer instructions regarding the return of specifically identifiable property other than commodity contracts (§§190.02(b) (1) and (2)).

Third Business Day After the Entry of an Order for Relief

1. Last day on which to notify the Commission with regard to whether a bulk transfer in accordance with section 764(b) of the Bankruptcy Code will take place (§190.02(a)(2) and §190.06(e)).

2. Second publication date for customer instructions (§190.02(b)(1)) (publication is to be made on two consecutive days, whether or not the second day is a business day).

Fourth Business Day After the Entry of an Order for Relief

If not previously concluded, conclude transfers under §190.06(e) and (f). *(See* §190.02(e)(1) and §190.06(g)(2)(i)(A)).

Fifth Business Day After the Entry of an Order for Relief

Last day for customers to instruct the trustee concerning open commodity contracts (§190.02(b)(2)).

Sixth Business Day After the Entry of an Order for Relief

Commence liquidation of open commodity contracts for which no customer instructions have been received (§190.02(b)(2)).

Seventh Business Day After the Entry of an Order for Relief

1. Customer instructions due to trustee concerning specifically indentifiable property (§190.02(b)(1)).

2. Primary liquidation date (§190.01(ff)) (assuming no bulk transfers and liquidation effected for all open commodity contracts for which no customer instructions were received by the close of business on the sixth business day).

3. Establishment of transfer accounts (§190.03(a)(1)) (assuming this is the primary liquidation date); mark such accounts to market (§190.03(a)(2)) (daily thereafter until closed).

Eighth Business Day After the Entry of an Order for Relief

Commence liquidation of specifically identifiable property for which no customer intructions have been received (§190.02(b)(1)).

Ninth Business Day After the Entry of an Order for Relief

Complete liquidation to the extent reasonably possible of specifically identifiable property which has yet to be liquidated and for which no customer instructions have been received (§190.03(c)).

Tenth Business Day After the Entry of an Order for Relief

1. Liquidate or offset all remaining open commodity contracts (§190.02(b)(2)).

2. Transfer all open dealer option contracts which have not previously been transferred (§190.06(f)(3)(i)).

Eleventh Business Day After the Entry of an Order for Relief

If not done previously, notify customers of bankruptcy and request customer proof of claim (§190.02(b)(4)).

Thirteenth Business Day After the Entry of an Order for Relief

Commence liquidation of specifically identifiable property for which no arrangements for return have been made in accordance with customer instructions (§§190.02(b)(1), 190.03(c)).

Separate Procedures for Involuntary Petitions for Bankruptcy

1. Within one business day after notice of receipt of filing of the petition in bankruptcy, the trustee should assure that proper notification has been given to the Commission and the commodity broker's designated self-regulatory organization (§190.02(a)(1)); margin calls should be issued if necessary (§190.02(g)(2)).

2. On or before the fourth business day after the filing of a petition in bankruptcy, the trustee should use his best efforts to effect a transfer in accordance with §§190.06 (e) and (f) of all open commodity contracts and equity held for or on behalf of customers of the commodity broker (§190.02(e)(2)) unless the debtor can provide certain assurances to the trustee.

BANKRUPTCY APPENDIX FORM 2—REQUEST FOR INSTRUCTIONS CONCERNING NON-CASH PROPERTY DEPOSITED WITH (COMMODITY BROKER)

Please take notice: On (date), a petition in bankruptcy was filed by [against] (commodity broker). Those commodity customers of (commodity broker) who deposited certain kinds of non-cash property (see below) with (commodity broker) may instruct the trustee of the estate to return their property to them as provided below.

As no customer may obtain more than his proportionate share of the property available to satisfy customer claims, if you instruct the trustee to return your property to you, you will be required to pay the estate, as a condition to the return of your property, an amount determined by the trustee. If your property is not margining an open contract, this amount will approximate the difference between the market value of your property and your pro rata share of the estate, as estimated by the trustee. If your property is margining an open contract, this amount will be approximately the full fair market value of the property on the date of its return.

Kinds of Property To Which This Notice Applies

1. Any security deposited as margin which, as of (date petition was filed), was securing an open commodity contract and is:
—registered in your name,
—not transferable by delivery, and
—not a short-term obligation.

2. Any fully-paid, non-exempt security held for your account in which there were no open contracts as of (date petition was filed). (Rather than the return, at this time, of the specific securities you deposited with (commodity broker), you may instead request now, or at any later time, that the trustee purchase ''like-kind'' securities of a fair market value which does not exceed your proportionate share of the estate).

3. Any warehouse receipt, bill of lading or other document of title deposited as margin which, as of (date petition was filed), was securing an open commodity contract and:—can be identified in (commodity broker)'s records as being held for your account, and—is neither in bearer form nor otherwise transferable by delivery.

4. Any warehouse receipt bill of lading or other document of title, or any commodity received, acquired or held by (commodity broker) to make or take delivery or exercise from or for your account and which:—can be identified in (commodity broker)'s records as received from or for your account as held specifically for the purpose of delivery or exercise.

5. Any cash or other property deposited to make or take delivery on a futures or options contract may be eligible to be returned. The trustee should be contacted directly for further information if you have deposited such property with (commodity broker) and desire its return.

Instructions must be received by (close of business on 4th business day after 2d publication date) or the trustee will liquidate your property. (If you own such property but fail to provide the trustee with instructions, you will still have a claim against (commodity broker) but you will not be able to have your specific property returned to you).

NOTE— Prior to receipt of your instructions, circumstances may require the trustee to liquidate your property, or transfer your property to another broker if it is margining open contracts. If your property is transferred and your instructions were received within the required time, your instructions will be forwarded to the new broker.

Instructions should be directed to: (Trustee's name, address, telephone and/or telex number).

Even if you request the return of your property, you must also pay the trustee the amount he specifies and provide the trustee with proof of your claim before (close of business on the 10th business day after 2d publication date) or your property will be liquidated. (Upon receipt of customer instructions to return property, the trustee will mail the sender a form which describes the information he must provide to substantiate his claim).

NOTE— The trustee is required to liquidate your property despite the timely receipt of your instructions, money, and proof of claim if, for any reason, your property cannot be returned by (close of business on the 10th business day after 2d publication date).

BANKRUPTCY APPENDIX FORM 3—REQUEST FOR INSTRUCTIONS CONCERNING TRANSFER OF YOUR HEDGE CONTRACTS HELD BY (COMMODITY BROKER)

United States Bankruptcy Court ____ District of ____In re ____, Debtor, No. ____.

Please take notice: On (date), a petition in bankruptcy was filed by [against] (commodity broker).

You indicated when your hedge account was opened that the contracts (futures and/or options) in your hedge account should not be liquidated automatically in the event of the bankruptcy of (commodity broker), and that you wished to provide instructions at this time concerning their disposition.

Instructions to transfer your positions and a cash deposit (as described below) must be received by the trustee by (close of business on 5th business day after entry of order for relief) or your positions will be liquidated.

If you request the transfer of your contracts, prior to their transfer, you must pay the trustee in cash an amount determined by the trustee which will approximate the difference between the value of the equity margining your positions and your pro rata share of the estate plus an amount constituting security for the nonrecovery of any overpayments. In your instructions, you should specify the broker to which you wish your contracts transferred.

Be further advised that prior to receipt of your instructions, circumstances may, in any event, require the trustee to liquidate or transfer your contracts. If your contracts are so transferred and your instructions are received, your instructions will be forwarded to the new broker.

Note also that the trustee is required to liquidate your positions despite the timely receipt of your instructions and money if, for any reason, you have not made arrangements to transfer and/or your contracts are not transferred by (10 business days after entry of order for relief).

Instructions should be sent to: (Trustee's or designee's name, address, telephone and/or telex number). [Instructions may also be provided by phone].

APPENDIX B TO PART 190—SPECIAL BANKRUPTCY DISTRIBUTIONS

FRAMEWORK 1—SPECIAL DISTRIBUTION OF CUSTOMER FUNDS WHEN FCM PARTICIPATED IN CROSS-MARGINING

The Commission has established the following distributional convention with respect to customer funds held by a futures commission merchant (FCM) that participated in a cross-margining (XM) program which shall apply if participating market professionals sign an agreement that makes reference to this distributional rule and the form of such agreement has been approved by the Commission by rule, regulation or order:

All customer funds held in respect of XM accounts, regardless of the product that customers holding such accounts are trading, are required by Commission order to be segregated separately from all other customer segregated funds. For purposes of this distributional rule, XM accounts will be deemed to be commodity interest accounts and securities held in XM accounts will be deemed to be received by the FCM to margin, guarantee or secure commodity interest contracts. The maintenance of property in an XM account will result in subordination of the claim for such property to certain non-XM customer claims and thereby will operate to cause such XM claim not to be treated as a customer claim for purposes of the Securities Investors Protection Act and the XM securities to be excluded from the securities estate. This creates subclasses of customer accounts, an XM account and a non-XM account (a person could hold each type of account), and results in two pools of customer segregated funds: An XM pool and a non-XM pool. In the event that there is a shortfall in the non-XM pool of customer class segregated funds and there is no shortfall in the XM pool of customer segregated funds, all customer net equity claims, whether or not they arise out of the XM subclass of accounts, will be combined and will be paid pro rata out of the total pool of available XM and non-XM customer funds. In the event that there is a shortfall in the XM pool of customer segregated funds and there is no shortfall in the non-XM pool of customer segregated funds, then customer net equity claims arising from the XM subclass of accounts shall be satisfied first from the XM pool of customer segregated funds, and customer net equity claims arising from the non-XM subclass of accounts shall be satisfied first from the non-XM customer segregated funds. Furthermore, in the event that there is a shortfall in both the non-XM and XM pools of customer segregated funds: (1) If the non-XM shortfall as a percentage of the segregation requirement in the non-XM pool is greater than or equal to the XM shortfall as a percentage of the segregation requirement in the XM pool, all customer net equity claims will be paid pro rata; and (2) if the XM shortfall as a percentage of the segregation requirement in the XM pool is greater than the non-XM shortfall as a percentage of the segregation requirement of the non-XM pool, non-XM customer net equity claims will be paid pro rata out of the available non-XM segregated funds, and XM customer net equity claims will be paid pro rata out of the available XM segregated funds. In this way, non-XM customers will never be adversely affected by an XM shortfall.

The following examples illustrate the operation of this convention. The examples assume that the FCM has two customers, one with exclusively XM accounts and one with exclusively non-XM accounts. However, the examples would apply equally if there were only one customer, with both an XM account and a non-XM account.

1. Sufficient Funds to Meet Non-XM and XM Customer Claims:

	Non-XM	XM	Total
Funds in segregation	150	150	300
Segregation requirement	150	150	300
Shortfall (dollars)	0	0	....
Shortfall (percent)	0	0	....
Distribution	150	150	300

There are adequate funds available and both the non-XM and the XM customer claims will be paid in full.

2. Shortfall in Non-XM Only:

	Non-XM	XM	Total
Funds in segregation	100	150	250
Segregation requirement	150	150	300
Shortfall (dollars)	50	0	....
Shortfall (percent)	50/150=33.3	0	....
Pro rata (percent)	150/300=50	150/300=50	....
Pro rata (dollars)	125	125	....
Distribution	125	125	250

Due to the non-XM account, there are insufficient funds available to meet both the non-XM and the XM customer claims in full. Each customer will receive his pro rata share of the funds available, or 50% of the $250 available, or $125.

3. Shortfall in XM Only:

	Non-XM	XM	Total
Funds in segregation	150	100	250
Segregation requirement	150	150	300
Shortfall (dollars)	0	50	....
Shortfall (percent)	0	50/150=33.3	....
Pro rata (percent)	150/300=50	150/300=50	....
Pro rata (dollars)	125	125	....
Distribution	150	100	250

Due to the XM account, there are insufficient funds available to meet both the non-XM and the XM customer claims in full. Accordingly, the XM funds and non-XM funds are treated as separate pools, and the non-XM customer will be paid in full, receiving $150 while the XM customer will receive the remaining $100.

4. Shortfall in Both, With XM Shortfall Exceeding Non-XM Shortfall:

	Non-XM	XM	Total
Funds in segregation	125	100	225
Segregation requirement	150	150	300
Shortfall (dollars)	25	50	....
Shortfall (percent)	25/150=16.7	50/150=33.3	....
Pro rata (percent)	150/300=50	150/300=50	....
Pro rata (dollars)	112.50	112.50	....
Distribution	125	100	225

There are insufficient funds available to meet both the non-XM and the XM customer claims in full, and the XM shortfall exceeds the non-XM shortfall. The non-XM customer will receive the $125 available with respect to non-XM claims while the XM customer will receive the $100 available with respect to XM claims.

5. Shortfall in Both, With Non-XM Shortfall Exceeding XM Shortfall:

	Non-XM	XM	Total
Funds in segregation	100	125	225
Segregation requirement	150	150	300
Shortfall (dollars)	50	25	....
Shortfall (percent)	50/150=33.3	25/150=16.7	....
Pro rata (percent)	150/300=50	150/300=50	....
Pro rata (dollars)	112.50	112.50	....
Distribution	112.50	112.50	225

There are insufficient funds available to meet both the non-XM and the XM customer claims in full, and the non-XM shortfall exceeds the XM shortfall. Each customer will receive 50% of the $225 available, or $112.50.

6. Shortfall in Both, Non-XM Shortfall = XM Shortfall:

	Non-XM	XM	Total
Funds in segregation	100	100	200
Segregation requirement	150	150	300
Shortfall (dollars)	50	50	....
Shortfall (percent)	50/150=33.3	50/150=33.3	....
Pro rata (percent)	150/300=50	150/300=50	....
Pro rata (dollars)	100	100	....
Distribution	100	100	200

There are insufficient funds available to meet both the non-XM and the XM customer claims in full, and the non-XM shortfall equals the XM shortfall. Each customer will receive 50% of the $200 available, or $100.

These examples illustrate the principle that pro rata distribution across both accounts is the preferable approach except when a shortfall in the XM account could harm non-XM customers. Thus, pro rata distribution occurs in Examples 1, 2, 5 and 6. Separate treatment of the XM and non-XM accounts occurs in Examples 3 and 4.

FRAMEWORK 2—SPECIAL DISTRIBUTION OF CUSTOMER FUNDS WHEN FCM PARTICIPATED IN THE TRADING OF DESIGNATED LINK CONTRACTS PURSUANT TO THE CBT–LIFFE LINK

The Commission has established the following distributional convention with respect to Section 4d customer funds held by a futures commission merchant (FCM) that participates in the trading of Chicago Board of Trade (''CBT'')-designated contracts executed on the London International Financial Futures and Options Exchange (''LIFFE'') or LIFFE-designated contracts executed on CBT (''Designated Link Contracts'') pursuant to the CBT–LIFFE Link (''Link'') which shall apply if customers of the FCM have been provided with a notice which makes reference to this distributional rule and the form of such notice has been approved by the Commission by rule, regulation or order. The maintenance of property in a Link account would result in subordination of the claim for such property to certain non-Link customer claims in certain circumstances. This results in subclasses of customer accounts required to be segregated for purposes of Section 4d(2) of the Commodity Exchange Act: a Link account and a non-Link account (a person could hold each type of account), and results in two pools of customer segregated funds: a Link pool and a non-Link pool.

In the event that there is a shortfall in the non-Link pool of customer segregated funds, and there is no shortfall in the Link pool of customer segregated funds, customer net equity claims, whether or not they arise out of the Link subclass of accounts, will be combined and will be paid pro rata out of the total pool of available Link and non-Link customer funds. In the event that there is a shortfall in the Link pool of customer segregated funds, and there is no shortfall in the non-Link pool of customer segregated funds, customer net equity claims arising from the non-Link subclass of accounts shall be satisfied from the non-Link customer segregated funds, and customer net equity claims arising from the Link subclass of accounts shall be paid from the Link customer segregated funds (and, if applicable, any excess funds held by the FCM in segregation in the U.S.). Furthermore, in the event that there is a shortfall in both the non-Link and Link pools of customer segregated funds: (1) If the non-Link shortfall as a percentage of the segregation requirement in the non-Link pool is greater than or equal to the Link shortfall as a percentage of the segregation requirement in the Link pool, customer net equity claims will be paid pro rata; and (2) if the Link shortfall as a percentage of the segregation requirement in the Link pool is greater than the non-Link shortfall as a percentage of the segregation requirement of the non-Link pool, non-Link customer net equity claims will be paid pro rata out of the available non-Link segregated funds, and Link customer net equity claims will be paid pro rata out of the available Link segregated funds. In this way, non-Link customers would never be adversely affected by a Link shortfall.[1]

The following examples illustrate the operation of this distributional convention. The examples assume that the FCM has two customers, one with exclusively Link accounts and one with exclusively non-Link accounts. In practice, the FCM would have a customer omnibus account with a LIFFE clearing member or would itself be a LIFFE clearing member with its own customer omnibus account. Positions in Designated CBT Contracts traded at LIFFE and initially cleared by LCH would be allocated to this customer omnibus account; following the transfer of the positions via the Link, the FCM would allocate the positions and any gains or losses to its customers' accounts. Accordingly, a customer who trades Designated CBT Contracts at LIFFE may have the portion of his account which reflects his activity in the customer omnibus account at LIFFE deemed a Link account and the remainder of the account a non-Link account. Effectively this will result in the customer having two claims—one against Link property and one against non-Link property.[2]

1. Sufficient Funds to Meet Non-Link and Link Customer Claims:

	Non-link	Link	Total
Funds in segregation	150	150	300
Segregation Requirement	150	150	300
Shortfall (dollars)	0	0	....
Shortfall (percent)	0	0	....
Distribution	150	150	300

There are adequate funds available, and both the non-Link and Link customer claims would be paid in full.

2. Shortfall in Non-Link Only:

	Non-link	Link	Total
Funds in segregation	100	150	250
Segregation Requirement	150	150	300
Shortfall (dollars)	50	0	....
Shortfall (percent)	50/150=33.3	0	....
Pro Rata (percent)	150/300=50	150/300=50	....
Pro Rata (dollars)	125	125	....
Distribution	125	125	250

Due to the non-Link account, there are insufficient funds available to meet both the non-Link and the Link customer claims in

[1] Because Link property will be located offshore, it is possible that such property could be frozen by governmental action or become unavailable as the result of sovereign events. In that situation, should such property subsequently become available, the Link property account may acquire no greater distributional share than Section 4d(2) (segregated funds) customers generally.

[2] Certain other property of the customers of the U.S. FCM also will be treated as ''Link property'' and part of the Link account for purposes of this Framework 2. In the case of Designated LIFFE Contracts traded on CBT, property received by the U.S. FCM to margin, guarantee or secure trades is included in the foreign futures and foreign options secured amount, pursuant to Commission Regulation 30.7. The Order approving the CBT/LIFFE Link permits BOTCC to commingle certain foreign currency with a Section 4d(2) account to permit certain property in excess of the required secured amount to be used to meet original margin requirements for U.S. contracts under Section 4d(2) of the Act. Such excess property held in a ''combined'' account but applied to margin requirements for U.S. contracts as Section 4d(2) property would also be ''Link property'' under this Framework.

full. Each customer will receive his or her pro rata share of the funds available, or 50% of the $250 available, or $125.

3. Shortfall in Link Only:

	Non-link	Link	Total
Funds in segregation	150	100	250
Segregation Requirement	150	150	300
Shortfall (dollars)	0	50	....
Shortfall (percent)	0	50/150=33.3	....
Pro Rata (percent)	150/300=50	150/300=50	....
Pro Rata (dollars)	125	125	....
Distribution	150	100	250

Due to the Link account, there are insufficient funds available to meet both the non-Link and Link Customer claims in full. Accordingly, the Link funds and non-Link funds are treated as separate pools, and the non-Link customer will be paid in full, receiving $150, while the Link customer would receive the remaining $100.

4. Shortfall in Both, Link Shortfall Exceeding Non-Link Shortfall:

	Non-link	Link	Total
Funds in segregation	125	100	225
Segregation Requirement	150	150	300
Shortfall (dollars)	25	50	....
Shortfall (percent)	25/150=16.7	50/150=33.3	....
Pro Rata (percent)	150/300=50	150/300=50	....
Pro Rata (dollars)	112.50	112.50	....
Distribution	125	100	225

There are insufficient funds available to meet both the non-Link and Link customer claims in full, and the Link shortfall exceeds the non-Link shortfall. The non-Link customer will receive $125 available with respect to non-Link claims while the Link customer will receive the $100 available with respect to the Link claims.

5. Shortfall in Both, With Non-Link Shortfall Exceeding Link Shortfall:

	Non-link	Link	Total
Funds in segregation	100	125	225
Segregation Requirement	150	150	300
Shortfall (dollars)	50	25	....
Shortfall (percent)	50/150=33.3	25/150=16.7	....
Pro Rata (percent)	150/300=50	150/300=50	....
Pro Rata (dollars)	112.50	112.50	....
Distribution	112.50	112.50	225

There are insufficient funds available to meet both the non-Link and Link customer claims in full, and the non-Link shortfall exceeds the Link shortfall. Each customer would receive 50% of the $225 available, or $112.50.

6. Shortfall in Both, Non-Link Shortfall=Link Shortfall:

	Non-link	Link	Total
Funds in segregation	100	100	200
Segregation Requirement	150	150	300
Shortfall (dollars)	50	50	....
Shortfall (percent)	50/150=33.3	50/150=33.3	....
Pro Rata (percent)	150/300=50	150/300=50	....
Pro Rata (dollars)	100	100	....
Distribution	100	100	200

There are insufficient funds available to meet both the non-Link and the Link customer claims in full, and the non-Link shortfall equals the Link shortfall. Each customer will receive 50% of the $200 available, or $100.

7. Shortfall in Link Account Caused by Freeze That is Subsequently Lifted, Where Non-Link Account Had Actual Shortfall But Link Account Did Not Subsequent to Lifting of Freeze Order:

	Non-link	Link	Total
Funds in segregation	100	Frozen	100
Segregation Requirement	150	150	300
Shortfall (dollars)	50	150	....
Shortfall (percent)	50/150=33.3	150/150=100	....
Pro Rata (percent)	150/300=50	150/300=50	....
Pro Rata (dollars)	50	50	....
Initial Distribution	100	0	100
Freeze Lifted: Funds Previously Frozen	0	150	150
Subsequent Distribution	25	125	....
Total Distribution	125	125	250

Through the time of the initial distribution, this situation would follow the pattern of Example 4 because the shortfall in the Link account was larger. After the freeze was lifted, it would follow the pattern of Example 2 because the shortfall in the non-Link account was larger.

These examples illustrate the principle that Pro rata distribution across both accounts is the preferable approach except when a shortfall in the Link account could harm non-Link customers. Thus, pro rata distribution occurs in Examples 1, 2, 5 and 6. Separate treatment of the Link and non-Link accounts occurs in Examples 3 and 4. In Example 7, separate treatment occurs where the funds are frozen. It is adjusted to become pro rata treatment after the freeze is lifted.
